

HyFinder

Hydrogen Leak Detection Paste & Tape

Product options

HyFinder: Hysen-C Hydrogen Leak Detection

size	
Pouch Type	Dia. 15mm x 0.3mm (t) (30 pieces)

HyFinder: Hysen-T Hydrogen Leak Detection Tape

size options	
Bottle Type	25mm x 5 meter x 0.3 mm (t)
	50mm x 5 meter x 0.3mm (t)

Properties	Solid silicone tape
Color	Light beige (no leak detected) / Grey (leak detected)
Odor	Very mild odor

HyFinder: Hysen-G Hydrogen Leak Detection Paste

size	
Tube Type	100 g

Properties	Silicone Paste
Color	Brown (no leak detected) / Grey (leak detected)
Odor	Very mild odor

Product description

HyFinder is an innovative and easy-to-use visual hydrogen leak detection solution that allows you to detect the location of a hydrogen leak with bare eyes. Simply apply the product where you want to check for a hydrogen leak and the HyFinder's color will change if a leak is detected.

Features

- Easy-to-use
- No electricity / battery required
- Quick response time
- Strong adhesion
- Non-toxic

Applications

- Valves, flanges, fittings, connectors, couplings, parts under vibration, welded pipes, etc.
- Hydrogen Industry
- Hydrogen refueling station
- Hydrogen FCEV
- Hydrogen laboratory
